NZ Bridge Teachers

Online practice for your beginners' class

The hands you have played in your class are shown on the internet. You can practice at home and it's a great way to improve.

1. Go to www.skybridgeclub.com
2. Choose **Log In** from the top menu and **Register** from the drop down menu
3. Put in your email address and choose a username and a password of your choice. (Don't change your mind as the system doesn't like it!)
4. Choose NZ as your country. That will mean you are playing Acol.
5. Now go to the **ASK** Page (see the button along the top of the page) and choose **Lessons & Practice.** Select the appropriate lesson from the **Beginners' Course.**
6. You are always South and your partner is the computer. If North becomes Declarer, you will play the hand.
7. You can review the lesson or replay the hands (click link at the top of the lesson). Notice that there is a hint button to check your bidding during the auction. You can also play the hands with or without tips.

Have fun and, if you have a problem ring Tina on 03 3550643 or Helen on 03 3529088

There's no need any longer for specific passwords to be given to the class.

Note that free registration covers students for the lessons and Hand 1 of the day, but if you wish to continue to play beyond that you will need to subscribe to the site.
