## **New Zealand Bridge Electronic System Card**

The card is a **PDF** that comes with a comprehensive inbuilt self-help file. It can be filled out printed, in colour, and saved for future use. In addition, once you have made one card you can rapidly edit it for use with another partner and then save it under a different name. That way you will create a library of cards for future use.

Download **NZ Bridge e-System Card. PDF** here:

PLEASE NOTE:

- Your computer must have Adobe Reader XI installed on your computer.
- Earlier versions of Adobe Reader do not have an edit and save function.
- To update your computer download Adobe Reader XI from Adobe NZ.  
<http://www.adobe.com/nz/downloads.html>
- We have received feedback from players that Adobe Reader XI may not work well with some versions of Windows Vista.
