

29<sup>th</sup> January 2020

**Opportunity: Youth Programme Coordinator**  
**We are seeking someone to drive our youth strategy**

New Zealand Bridge and the World Bridge Federation acknowledge the importance of introducing youth to our game. Youth inevitably are our future. Working with young players is a most rewarding role in that players are very keen and usually quick to learn.

Last year we developed a youth strategy. We were very fortunate to have at our disposal the services of Jan France and Richard Solomon. As previously advised Richard has taken on a new role managing major events including Congress and the Interprovincials plus leading an ongoing bridge development/education programme.

Regrettably Jan has for personal reasons stepped down driving the youth strategy and as the Auckland Northland regional bridge mate.

We are keen to find someone willing to take on the youth role. If you are interested can you contact Alister in the first instance and he will share with you the current strategy and who is currently doing what. For instance we are fortunate to have Sam Coutts from Dunedin who in conjunction with the International Committee is managing our international youth programme.

We welcome your enquiry by no later than 29<sup>th</sup> Feb 2020.

Allan Morris  
Chair- NZ Bridge
